| NAME | 85 - JOHN HUNTINGTON - Best Practices questions | answer time into video |
|---|---|---|
| Samuel Blakemore | Thank you for coming on! You mentioned we could purchase your book from Rational Acoustics. I'm in the UK - is there a way for me to get it without paying FedEx international? Thanks! | 0:29:02 |
| Nicola Pisano | Is this book available in Europe? | 0:29:05 |
| Stan Hunter | How much detail does the book cover on VLANs? | 0:30:26 |
| Odysseas Tatis-Sofianopoulis | Pros and Cons of using AVB over Dante? | 0:31:45 |
| Kevin Lawson | I joined late. How do I get the book in question? | 0:32:09 |
| El Armstrong | What do you think the future of Dante Video is? | 0:39:52 |
| Samuel Blakemore | Being in the USA, which ethernet wiring standard do you use? A or B? I know over here in the UK the standard is B. | 0:42:56 |
| Andrew Broughton | What procedures and tools do you like to use to troubleshoot networking problems? (Walking into someone else's setup, I mean) | 0:44:28 |
| Palmer Jankens | I think the answer is "no," but when your building has older installed infrastructure (like Cat5 instead of Cat5e or 62.5um fiber) are there any simple workarounds to continue using it? | 0:47:35 |
| Alan Chang | Is the AVB/Milan/Dante from Luminex? | 1:51:20 |
| Odysseas Tatis-Sofianopoulis | How do you see network use evolve in the touring industry? Will a network/IT tech become part of the touring crew in the next few years? | 0:49:13 |
| Craig Kadoke | Interesting comparison considreing AVB in built into Mac | |
| Wynn Johnson | this is an avb controller of sorts    https://github.com/L-Acoustics/avdecc | |
| Kenneth Goodwin | AJA has a dante video product with 12G-SDI | 0:52:19 |
| Henry Cohen | Digital networking equipment, especially UTP cable, can have significant broadband RF emissions, despite any FCC Part 15 compliance. This in turn can affect other equipment in the productiin environment, particularly analog audio and wireless equipment. What are the best practices to minimize the digital equipment from emitting stray RF energy? | 0:54:15 |
| Palmer Jankens | If you have existing separate lighting and sound networks and decide to tie them together (say you want to use OSC commands to fire cues together) what are the most important considerations to consider before you join the two networks? | 0:56:07 |
| Nicola Pisano | Is Optocore system mentioned in this book? | 1:49:04 |
| Samuel Blakemore | Are there any specific software you use aide you in your process? Eg to draw network diagrams, fault find and fix, or just to scan the network.. Wireshark etc. | 0:59:49 |
| Odysseas Tatis-Sofianopoulis | It's pretty weird actually, there's a lack of RF techs and network savy people. Both are really interesting subjects but no one cares about that... | |
| Henry Cohen | You won't like my answer! | |
| Andrew Herbein | MAC address binding | 1:04:12 |

| Matthew Benjamin | Has ETCP thought about network certification to go along with rigging and electrics? | 1:12:17 |
|---|---|---|
| Odysseas Tatis-Sofianopoulis | There's some free interesting courses on LinkedIn and Coursera and they're unbiased too! | |
| Timothy Williamson | suggestions for farther reading after Introduction to Show Networking? | 1:16:53 |
| Justin Herminghouse | NDII | |
| Timothy Williamson | NDI is the newtek one. | 1:37:09 |
| Justin Herminghouse | NDI, sorry. | |
| Nicola Pisano | Which software do you prefer for network monitoring? (the dude, PRTG, etc) | 1:29:52 |
| Craig Kadoke | what was the netgear video over ip system you talked about earlier? | 1:31:27 |
| Henry Cohen | Pete - Jim from OSA was using those new Netgear switches on the PA for the debates. | 1:33:49 |
| Mike Kahrs | Little Snitch might do it. | |
| Michael Solomon | Yes some switches have dhcp snooping and can alert you. Or can alert you to port status going active. To answer your question pete | |
| Aaron Kruse | vMix streaming studio software uses NDI extensively for inputs and outputs. | |
| Samuel Blakemore | I often use QLAB - Syphon - Capture for pre-visualisation | |
| Don Hartley | Digigram has some great solutions for quality audio in parralel to Zoom. | |
| Don Hartley | Pete, Check out Iqoya Guest. | |
| Odysseas Tatis-Sofianopoulis | Expanded beam connector | |
| Henry Cohen | Fiberco? | |
| Odysseas Tatis-Sofianopoulis | HMA fibre, optocore was bought by BroaMan http://www.broadcastmanufactur.com | |
| Timothy Williamson | Any other places to get Introduction to Show Networking(shipping to Canada costs almost as much as the book...)? | 1:53:04 |
| Henry Cohen | Mac - Fiberco? | |
| Mark Niewiarowski | will there be a digital version of the book? | |
| Samuel Blakemore | Thanks John / Peter / Mac ! | |
| Odysseas Tatis-Sofianopoulis | Great session today guys! Thank you! | |
| Ike Zimbel | Thanks guys! Another great one. | |
| Don Hartley | Great job with all the shows! Thank you for what you do. | |
