Question Details			
#	Question	Asker Name	Answer
0:41	Hey Guys! Merry Christmas!!!	Shelton Thompson	Merry Christmas!
0:56	question asked.....	John Peter monitor	live answered
0:42	Good to see you guys.	Andrew Broughton	Thanks for stopping by...
0:59	Recently used it on a show. Great resource.	john zambrano	live answered
0:45	Merry Christmas to All of you from Chad and Carmen 😊	chad rainey	Merry Christmas to you from Mac!
0:55	Were you guys involved with the development of IAS?	Patrick Riley	live answered
0:56	Is it like ShoFlow but for RF/Coms/Audio?	Ed Willock	live answered
0:56	USA locations only?	Andrew Broughton	live answered
0:57	Does this support going above 616mhz? for stuff like Duplex gap, 900mhz?	Andrew Jones	live answered
0:58	Is it possible to deselect a blocked TV channel in coord & make it available?	Patrick Riley	live answered
0:57	Kelly! Are you new?	Shelton Thompson	Clearly...
1:04	Kelly! Are you new?	Shelton Thompson	The more features it has the fewer you should use :)
0:58	Where are you pulling the exclusion zone data from?	GW Rodriguez	live answered
0:58	Where does your API pull the data regarding occupied spectrum from?	Ed Willock	live answered
0:58	Question for later, security? Can this be operated through a VPN?	Shelton Thompson	live answered
0:58	Are you saying a person could have access to a different users scan data?	GW Rodriguez	live answered
1:08	Is there a difference between the colors of the DTV Channels?	Anonymous Attendee	live answered
0:59	I'm going through a VPN right now and it works so far.	Mark Hannah	live answered
1:48	Thank you for this demo. This is great. My question is about is about versioning. Can I see what the project looked like earlier in the day if it is the afternoon or evening?	Douglas Gillette	live answered
1:28	Can it populate RF equipment automatically by finding it on the network?	Andrew Broughton	live answered
1:44	If they're going to talk about hardware control later, then nevermind	Andrew Broughton	cleared
1:18	Since this can be used on anything, are there plans for an android or IOS app in the future? Thank you!	Stephen Pavlik	live answered
1:31	Where to you add quantity of Freq's needed?	Shelton Thompson	live answered
1:15	How are you verifying your calculations are "very good"? What is your verification process?	GW Rodriguez	live answered
1:13	Will it always require an active internet connection? Currently it doesn't look like there is a way to work offline and then sync once the internet connection returns.	Richard Pacheco	live answered
1:16	I meant, if you're saying your location calculations are more accurate than zip code, how are you verifying it is more accurate? What comparative analysis have you guys done?	GW Rodriguez	live answered
2:34	will there be a cost to using sound base in the future?	Andre Rivera	live answered
1:38	what brands of microphones can it coordinate? can you enter in a custom transmitter?	Andrew Jones	live answered
1:24	How do I upload scans to your database?	Ben Jones	live answered
1:26	Will SoundBase take files from Shure's WWB?	Shelton Thompson	live answered
1:27	is there a setting for RF Explorer	Fred Lichter	SOON TO BE ADED
1:28	what equipment model option from the drop down menu can we use, while trying to upload an rf explorer data?	Marco A	live answered
1:34	How do you manage multiple scans that are in the same location by the same and/or different people?	GW Rodriguez	live answered
1:37	Still missed where to add freq's	Shelton Thompson	live answered
1:51	What are the check boxes to the left of each frequency for?	Stuart Schwartz	live answered
1:47	If I import my scan is it automatically uploaded to the Scan Recon database? If so, is it possible to not upload these scans?	Anonymous Attendee	live answered
1:46	How do you share the coordination data with another user?	Ed Willock	live answered
1:46	My question is about versioning. Can I see what the project looked like earlier in the day if it is the afternoon or evening?	Douglas Gillette	live answered
2:24	Can you do 2way radio frequency calculation? Considering I work in Stadiums a lot.  If I had a group of say 24 freq's but only need to use 8 of them. Would this app calculate best freq's to use?	David Robertson	live answered
2:03	What about integration with a software that already does device control like WaveTool?	Eric Tumbleson	live answered
2:01	What is the workflow for adding to the same coord both analog frequencies where IMD products are a concern, and digital frequencies where IMD products are not a concern?	Derek Vintschger	live answered
1:41	When you select generic, you cant change TX power	Andrew Jones	live answered
1:42	High Density on the shure profile?	Marco A	live answered
1:43	Will you guys stay up to date on new gear models for profiles? I think the one of the biggest draw back to wwb is the old equipment profiles i.e. Lectro	Jared King	live answered
1:56	Being browser-based/online I assume it can't read/write to the RF hardware?	Andrew Broughton	I think the difficulty of attaching the web to production equipment was discussed

1:43	could you just duplicate the Shure profile and make changes AND keep the power settings?	Eric Tumbleson	live answered
1:45	yep, it kept the power settings.	Eric Tumbleson	live answered
2:34	What will the Coord Pro subscription cost once it is out of beta? Will there be multiple tiers of subscriptions?	Ed Willock	live answered
2:37	It would seem there is a legal issue with forcing the upload of a scan. Just as console show files are a work product belonging to the client, any scans would also fall into that category. If the event was covered by any NDA, this would also violate that as well. NOT LEGAL ADVISE	Eric Tumbleson	live answered
2:34	Question for the end of this webinarWhen will the beta period end, & how much will it cost? Will there be purchase options? Subscription?	Patrick Riley	live answered
1:53	NICE!!! Found freqs!!	Shelton Thompson	live answered
1:55	Not a question but a bug report, unable to add RAD belt packs, get conflict errors	Anonymous Attendee	live answered
1:55	How are you quickly zooming back out on the frequency plot?	David Garwood	live answered
2:00	Could we see an example of a coordination where you needed to bring in a set of frequencies as well as coordinate some new frequencies?	Eric Tumbleson	live answered
1:57	belt pack	Anonymous Attendee	live answered
2:00	When I try an do this, it just throws the freqs into a group and does not coordinate IMD	Eric Tumbleson	live answered
2:03	yep, this is the issue	Eric Tumbleson	live answered
2:16	I'm not sure if this is more of a topic for Thursday but wanted to see how to the export to WWB works.	James Burke	live answered
2:01	you cant change it	Eric Tumbleson	live answered
2:02	its locked	Eric Tumbleson	live answered
2:25	I have only briefly looked at app. Will I be able to do communications equipment into this. eg. Motorola or Bolero	David Robertson	BOLERO OR FREESPEAK ARE NOT USUSALLY COORDINATED
2:10	Is there a way to auto generate a number order for labelling?	David Robertson	live answered
2:16	it seems that getting Shure products online would be doable with the AMX/Creston Syntax.	Eric Tumbleson	live answered
2:30	Is there live scan capability or just snapshots of a moment?	Shelton Thompson	no scan capability built in....
2:08	Once you've excluded a frequency, does the software calculate using the excluded freq? or does it not take the excluded freq into it's calculation?	Patrick Riley	live answered
2:18	How to make zones like WWB	Stan Hunter	live answered
2:24	Since this is webbased, do I need to bookmark a page, or is there an actually app I can download?	Shelton Thompson	YOU CAN SET UP AN ACCOUNT AT WEBSITE.
2:14	Once you've finished your coordination, how do you get your frequencies to your equipment? Is there an export to the different manufacturers or do I need to manually enter the frequencies?	GW Rodriguez	live answered
2:20	If you're touring and change your sites from day to day would the calculation history follow as Well? I wouldnt need to see the calculation history from a tour stop several weeks ago just today.	Anonymous Attendee	live answered
2:45	Would this be live spectrum data from 3rd party devices or networked equipment?	Eric Tumbleson	live answered
2:39	Could they discuss any best practices for using the time based features.	Eric Tumbleson	live answered
2:40	when will dashboard and harmony be available for beta?	Anonymous Attendee	live answered
2:33	lets say they hold doors for 30 min. Could you slide all the time based show back entirely 30 min in an easy way?	Eric Tumbleson	live answered
2:33	or if there is a delay mid show, could you push all the times after by a certain amount of minutes?	Eric Tumbleson	live answered
2:33	thats what i thought.	Eric Tumbleson	live answered
2:38	On the zone groups, if you have one active zone/group, then you add another zone, do both zones work together as far as coordination, or is every zone independently coordinated?	Marco A	live answered
2:44	Wow!	Patrick Riley	live answered
2:41	p	Eric Tumbleson	live answered
2:41	if you charge for it. Lots of public data is covered by NDS.	Eric Tumbleson	live answered
2:40	your report is not.	Eric Tumbleson	live answered
2:42	I dont mind sharing shows not covered by NDA.	Eric Tumbleson	live answered
2:42	Can you repeat? Interactions are site based and also....?	Jonathan Melchiorre	live answered
2:42	How is Sound Base going to remain free in the future? for future updates	Anonymous Attendee	live answered
2:46	so we are the product, not the customer?	Eric Tumbleson	live answered
2:43	Can you custom arrange the order of frequencies in a zone?	Stuart Schwartz	live answered
2:46	Great job guys. Looking forward to next round.	Shelton Thompson	live answered
2:46	yes	Eric Tumbleson	live answered
2:46	Thank you! Happy Holidays!	Rod Barton	happy....
2:47	Beautiful interface. Nice work!	Andrew Broughton	live answered
2:49	THANKS, I love this software!	Eric Tumbleson	live answered
2:49	great stuff, folks - TX! will the second show be recorded as well? i might not make it on thursday...	Klaus Zimmermann	yes
